Risk assessment notes

Tunnels do not hold 85kg which reduces the risk of 1.8m users, also an entry point so less inclined to conduct misuse, supervision required at all times as per EN14960

Inspection. This inspection certifies that the equipment described above conforms to BS EN 14960. Where an item falls outside the scope of the standard, it has been manufactured and tested to that standard as closely as the design allows.
